SKILLS

- **App Development (Android Native)**
- **Python, Java, Kotlin**
- **C, C++**
- **HTML, CSS, JavaScript**
- **Web Development (Frontend)**

EDUCATION

- **B.Tech CSE (AI&ML)** | Vishwakarma University, Pune **CGPA: 8.54** / (05-07-2025)
- **XII (CBSE)** | Central Academy Sr. Sec. School **73%** | 2023

ACADEMIC PROJECTS

- **Unit Converter:** A simple Jetpack Compose unit conversion app for length measurements. Users enter a value, select input and output units, and see instant conversions with a clean UI and dropdown menus

GitHub: <https://github.com/Himanshu-git-5/Unit-Converter>
- **Shopping List:** The app allows users to add, edit, and delete shopping items dynamically. It features a clean and responsive UI. The app uses handle UI state, enabling real-time updates without a database. This project helped me strengthen my skills in Kotlin, Jetpack Compose, and modern Android UI development.
